Business Casual Men
Personal style should never be underestimated, and our workwear clothing is certainly no exception. Clothing defines us as people and not just as workers. It is only natural for gentlemen to want to wear office attire right, no matter the degree of formality.
This dress code shouldn't be overlooked, but rather celebrated for its mix of formal and casual wear.

STYLE GUIDE FOR THE BUSINESS MAN
Business casual is one of those dress codes that doesn't have a strict definition. It can be loosely defined as an office dress code that is distinguished as more casual than typical corporate wear, yet not casual enough for everyday wear.
